

The Delineator

A Keating Dental Lab Exclusive

Keating Dental Lab has provided dental practices with the highest quality restorations, paired with reliable, friendly service since 2002.

As a family-run full-service dental lab, we treat our dentists like we would our own. Our goal is to provide doctors with the expertise of a national lab, and the convenience of a local laboratory partner.

AS LEADERS IN THE DENTAL LABORATORY INDUSTRY, WE ARE PROUD TO OFFER THE EXCLUSIVE DELINEATOR™

Inspired by the Latin word for "map", The Delineator™ is an exclusive product from Keating Dental Lab. The Delineator™ offers four functions in one specific appliance: radiographic guide, surgical guide, provisional appliance, and implant locator.

Eliminate any guesswork between the surgeon, restoring doctor, and technician by prescribing our Delineator as the first step of your implant case planning.

The Delineator may also be prescribed as a unilateral metal-less partial with clear clasps without the metal surgical guide sleeves.

Send a diagnostic model or impression of your case, and our team of certified dental technicians will provide you with an expertly crafted Delineator.

We invite you to visit us at keatingdentallab.com to see all we have to offer or call 800-433-9833 to speak with one of our friendly representatives.
